## Websites dedicated to victims of vaccine damage (see page 4)

It is becoming more and more clear that the Covid vaccines have done and are causing extensive damage. When we just look at data, available on the internet, about the *extent* of the adverse reactions to the vaccine, what we see is alarming. For instance, here is a website called **VAERS COVID Vaccine Adverse Event Reports**: <https://openvaers.com/covid-data>, a site from the American Center for Disease Control (CDC), where all kind of public information can be obtained about Covid vaccine damage in the USA. Please let the numbers in the picture below, like for instance 31.961(!) deaths sink in:

Scrolling down, one can see buttons with texts like **Read COVID Child Reports** and **Read VAERS COVID Reports**. Pressing on the second of these buttons opens a web page called <https://www.openvaers.com/vaersapp/reports.php> and there, one can search for various types of 'adverse effects', including deaths.

Here is one adverse reaction from the many that can be found:

And these are just some *official* data, from the USA *alone*! It can safely be assumed that the actual numbers are far higher. At 55:52 (-54:33) in Part I of the brilliant documentary *The Real Anthony*

*Fauci*<sup>1</sup> (click on <https://www.therealanthonyfaucimovie.com/trailer/> and register), one can hear Chief scientific officer and critical care specialist Paul Marik MD comment on the VAERS system in this way: *‘There’s a number of reasons that it’s underreported. It is a very cumbersome system, it’s difficult to use, it’s difficult to get data in, and it takes time, and clinicians are reluctant to put data into the VAERS system, so there should be a much more proactive system, where the Federal government, if they were interested, would more closely track the adverse events related to these vaccines.’*

*Paul Marik MD: ‘It is a very cumbersome system.’*

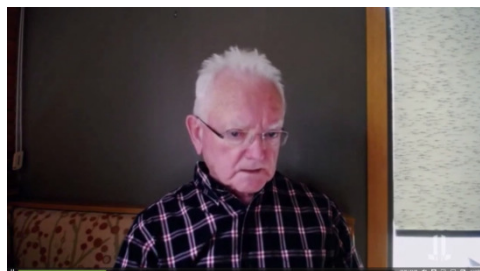

After which one can hear Robert F. Kennedy’s say:

*‘Doctor Fauci’s refusal to fix the Health and Human Services [HHS] department’s notoriously dysfunctional vaccine injuries surveillance system VAERS constituted inexcusable negligence. HHS’s own studies indicate that VAERS may be understating vaccine injuries by over 99 percent.’*

*Robert F. Kennedy: ‘VAERS may be understating vaccine injuries by over 99 percent.’*

Here is a video, where Canada-based Dr. Hodkinson, a medical specialist in pathology, a graduate of Cambridge University and a Fellow of the College of American Pathologists (FCAP) and the Royal College of Physicians and Surgeons of Canada (FRCPC), states that, by now, no less than **20 million** persons have died as a direct result of having received the vaccine, and that no less than **2.2 billion** people have been damaged as a result of this: **Dr. Roger Hodkinson Reveals Latest Vaccine Stats - 20 Million Dead from the Jab and 2.2 Billion Injured:** <https://rumble.com/v1ndwyo--dr.-roger-hodkinson-latest-vaccine-stats-20-million-dead-from-the-jab-and-.html> (very much worth listening to in its entirety!)

*Dr. Hodkinson: ‘These numbers are beyond staggering.’*

<sup>1</sup> Based on Robert F. Kennedy’s book with the same name.

These numbers are the result of the extrapolation of all available data by Professor Peter Halligan, Chief Scientific Advisor to Wales, whom Dr. Hodkinson describes as being ‘a most experienced analyst in the financial industry, extremely used to looking at statistics, and translating them into a summary statement.’ In this article, more information is provided, for instance about how Peter Halligan came to the 20 million number: <https://vigilantfox.substack.com/p/20-million-dead-from-the-jab-22-billion>.

The list goes on and on. In the past, far less cases of ‘adverse reactions’ would have resulted in an immediate withdrawal of any medicine that just might remotely possibly be connected with such horrific cases of damage and death. That is clearly isn’t, *still* isn’t the case now is an indication of something so dark, that most people simply can’t accept that this can possibly be true: that all this is by design. This topic is further elaborated in other articles, that can be found here: <https://www.eduarddeboer.org/articles-and-compositions-inspired-by-current-times/>.

There appears to be a difference in the degree of harmfulness, depending on the so-called ‘batch’, to which the administered ‘vaccine’ belongs. More information about this can be found here: <https://howbadismybatch.com/>.

World renowned biophysicist Andreas Kalcker saved millions of covid patients, and works with thousands of physicians, scientists and lawyers. His cure for covid could end the pandemic.
